What's New

Everyone is very happy.
They say that soon they
will give the Corona
Virus Vaccine to those
people who work in
hospitals and also to
old men and old women.

This medicine goes bad
if it isn't cold.
When they move the
medicine, they place it
in a certain ice called
dry ice. It is very
cold.

Nobody knows when
everyone will take
this vaccine. Maybe
you will take it
tomorrow, maybe next
week, maybe next
month.
